Document ID: FIN-001

Title: Finance Operations SOP

Version: 1.2

Department: Finance

Effective Date: 2026-09-01

Scope: This approved Finance Operations SOP applies to Finance workflows and supports role Data Analyst.

Requirement 1: Employees must complete the annual policy acknowledgement within 30 days of joining. For Data Analyst, this requirement applies to onboarding and role execution.

Requirement 2: Employees must use approved company systems for organizational work and records.

Requirement 3: Managers must review mandatory onboarding completion before independent work begins.

Requirement 4: Required training must be completed before access to restricted workflows is granted. For Data Analyst, this requirement applies to onboarding and role execution.

Requirement 5: The employee should document exceptions using the approved internal process.

Requirement 6: Mandatory records must be retained according to the current company retention schedule.

Requirement 7: Role holders must escalate unresolved exceptions through the documented escalation path. For Data Analyst, this requirement applies to onboarding and role execution.

Requirement 8: Employees must protect confidential company and customer information from unauthorized disclosure.
